

Can You be The One
(Jessica Falk)

Love can be in so many ways.
When you've met the One - you just know.
I feel alive when you're close to me.
My body screams when you're not here.
If life has a meaning - it can't be one without you

CHORUS

I am here wishing that our dreams come true
Heaven or not - this is where my heart belongs.
I feel alive when I hear you're breathing close to me.
If life has a meaning - I can't live without you.

Can you be the One - my destiny?
Can we reach the sky - be one?
Will be close to you, my only love.
I will wait for you until the time has come.
Open your arms - I'll never leave without you!

CHORUS

I'm here, wishing that our dreams come true.
Heaven or not - this is where my heart belongs
I feel alive when I hear you're breathing close to me.
If life has a meaning - It can't be without you!

There's a calm before the storm is over us.
Take a deep breath, feel that I am here.
We are strong and can believe our love is true.
Please never leave me - I can't live without you!

Open your arms - I'll never leave without you
