

WIDE OPEN

(Jessica Falk & Scott Baggett)

Driving down the road wind in my hair  
It doesn't matter where I'm going  
Foot on the gas, way too fast  
Living life wide open

Miracles are all around  
You just have to believe  
When your eyes are wide open  
It's so easy to see

Some people are afraid of love  
They build a wall of emotion  
Like a prisoner they can't break free  
Until the door is wide open

Miracles are all around  
You just have to believe  
When your eyes are wide open  
It's so easy to see

There's a world waiting there for you  
If you just tear down the wall  
Love and laughter ever after  
You can have it all  
Hey!

When your world is upside down  
And everything seems broken  
There is hope to be found  
If your heart is wide open

Miracles are all around  
You just have to believe  
When your eyes are wide open  
It's so easy to see

Wide open  
Living life wide open  
Wide open  
Living life wide open
